

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In Re the Application of:

KIEFER et al.

Serial No.: 09/633,200

Filed: August 7, 2000

Atty. File No.: 4588-1-1-DIV4

For: "METHODS AND COMPOSITIONS
FOR DETECTING CDN APOPTOSIS-
MODULATING PROTEINS"
(as amended)

Assistant Commissioner for Patents
Washington, D.C. 20231

Dear Sir:

Pursuant to the Examiner's request in the Office Action dated February 13, 2002 and the Office Action dated August 26, 2002, enclosed are copies of the references cited on Applicants' 1449 form for the above-identified application, which was filed March 16, 2001. Pursuant to 37 CFR 1.98(d), copies of the references were not submitted on March 16, 2001, since the copies should have been of record in the parent application. However, since the Patent Office was unable to locate the references, copies are now provided for the Examiner's convenience and consideration.

Applicants respectfully request that the Examiner consider the enclosed references and initial and date Applicants' 1449 form. Applicants note that the only reference for which a copy is not enclosed is item 55 (Meyn, *Cancer Genet.*, 53:(Abstract No. 1529), 1993). Applicants were unable to locate or obtain a copy of the reference at this time.

Since the original 1449 was timely and properly filed, no fees are believed to be due in connection with this submission, but if fees are due, please debit Deposit Account No. 19-1970.

Respectfully submitted,

SHERIDAN ROSS P.C.
